COMMENT LIRE LES SPÉCIFICATIONS DES ROUES:

Ex: Grandeur de la roue: 12 X 7 2+5 REAR 4 / 110

- ① Le chiffre 12 signifie que le diamètre de la roue (jante) mesure 12 pouces.
- ② Le chiffre 7 quant à lui désigne la largeur de la jante.
- ③ Généralement, nos roues sont centrées sans décalage. Un décalage, tel que 2 + 5 REAR par exemple, indique que la roue est décentrée 2" vers l'intérieur et 5" décentrée vers l'extérieur
- ④ Signifie le nombre de trous d'écrous dans la roue.
- ⑤ Espace entre les trous des écrous (en millimètres), mesuré du centre du trou diagonalement au milieu de roue jusqu'au centre du trou opposé.

HOW TO READ WHEEL SIZING SPECIFICATIONS:

Ex: The wheel is sized: 12 X 7 2+5 REAR 4 / 110

- ① The number 12 means that the diameter of the wheel, (the tire rim) measures 12"
- ② The number 7 means the width of the wheel.
- ③ Generally, our wheels are centered with no offset. An offset, like 2 + 5 REAR, for example, indicates that the wheel is 2" off-center inside and 5" offset to the outside.
- ④ Meaning the number of bolt holes (in millimeters).
- ⑤ Spacing between bolt holes (in millimeters) measured from center of hole across center of wheel to center of opposite bolt hole.
